Remarks

- ◇ Given values are calculated averages in air-dry feed.
- ◇ Energy values calculated according to Kamphues et al. 2014. GE=gross energy, ME=metabolisable energy. Digestible energy calculated according to FEDIAF 2013
- ◇ Trace elements: calculated total content. Vitamin declaration: vitamins added before production. Estimated total vitamin content for ration calculations on request.
- ◇ Nutrients are subject to natural variation of the raw materials and their production process.

OUR FEED RECOMMENDATION

- ◇ The feed is suitable for consumption ad libitum.
- ◇ It can be used as a complete or supplementary feed.
- ◇ Adding hay and fresh feed as desired results in an animal-friendly ration, rich in fibers diet.
- ◇ Always provide free access to fresh drinking water.
- ◇ Daily feeding requirements: about 4-6% of body weight.
- ◇ To increase the fiber content in the diet and for reasons of health and enrichment, it is advisable to provide hay ad libitum.
